Claim Rejections (Pages 3 and 4 of the Office Action)

Claim 22 has been amended to more clearly and accurately define patentable subject matter and to overcome the Examiner's rejections. Claim 22 has been amended to include a voltage and current regulator, which comprises an adjustable band-gap voltage reference diode, a voltage divider potentiometer, a resistor, and a transistor not found in any prior art. As a result Claims 23-25 also more clearly and accurately define patentable subject matter and overcome the Examiner's rejections, and which are also not found in any prior art.

Applicant respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully submitted,
